CONDITIONS/INSTRUCTION

1. Payment is due within 15 days.

****Bilkul YES!**** ✓ Aap JSON file ko ****multiple languages**** me convert kar sakte ho — aur jitni marzi languages me convert kar sakte ho. Sir ne aap ko jo task diya hai, wo ****exactly isi cheez ke liye hota hai****: JSON → Translate → Multiple languages → PDF (TCPDF). --- # ****JSON Translation Multiple Languages — How it Works**** Aap JSON file ke text ko kisi bhi language me convert kar sakte ho: ### ****Example languages:**

- * English → Urdu
- * English → Arabic
- * English → Chinese
- * English → Spanish
- * English → French

****And many more...**** Bas translation package me language code change karna hota hai: `` ` 'en' → english 'ur' → urdu 'ar' → arabic 'fr' → french 'es' → spanish `` --- # ****Multiple Languages Support — 2 Possible Ways**** ## ****Method 1: Using a Translation Package (Offline / Local)**** Symfony Translator ya koi offline dictionary-based translator ka use karte ho: ✓ Aap translator me multiple language dictionaries add kar sakte ho. ✓ Ek hi JSON file ko ****3-4**** languages me convert kar sakte ho. ✓ No API needed → No Google Translate. Example: `` ` php \$translator->setLocale('ur'); `` Then: `` ` php \$translator->setLocale('fr'); `` Har dafa aap translated JSON bana sakte ho. --- ## ****Method 2: Custom Dictionary JSON (Best for Assignment)**** Aap khud ek file bana sakte ho: `` ` json { "Invoice Report": { "ur": "ٹروپرسوائون", "ar": "ةروتا فل ريرقت", "fr": "Rapport de facture" } } `` Then your PHP code: * JSON read karega * Key find karega * Required language nikaalega * Replace karega Ye ****without internet****, ****without google****, ****fully offline**** translation hoti hai. --- # ****Answer in Short (Yes/No)**** ### ✓ ****YES — You can convert JSON text into ANY language.**** ### ✓ ****YES — You can convert into MULTIPLE languages.**** ### ✓ ****YES — Same JSON file can produce Urdu, Arabic, Chinese, French, etc. outputs.**** --- # ****Aap JSON file share kar dein**** Phir main: * Aap ke JSON ke according * Multi-language translate code * Dynamic TCPDF PDF code * Full Laravel example * Step-by-step guide ****Complete ready bana dunga.****
